Aberdeen City were more likely to go shopping in the last in **Aberdeenshire**

NORTH EAST TRANSPORT BEHAVIOUR AND ATTITUDE SURVEYS

agree that use of **face** coverings on public transport makes them feel **safer**

Wave 6 Report (Survey Undertaken between 2nd November and 9th November) Key Findings Infographic

Train

Positivity towards ways of travelling

Reasons for feeling negatively towards public transport

over catching coronavirus/other illness

distancing may not be in place

is easier / more convenient

How to feel safer

Access to hand sanitiser at stations/stops

nteriors of vehicles

Since the Covid-19 restrictions

48% Walking:

for leisure/exercise

26%

normally make

another way

24% Cycling:

> 16% Cycling: to replace a journey I would

normally make

another way

for leisure/exercise

49%

Commuting behaviours

have made a trip to work in the last seven days

Key differences include:

- Slightly less felt positively towards walking and cycling
- Less people want to work flexibly in the future

The results for Wave 6 are broadly similar to Waves 1-5. More had travelled to work in the last seven days

expect that virtual meetings will replace some, or all, face to face meetings
