

Public transport users were around **twice more likely** than non-users to **feel positively** towards using the bus and train

NORTH EAST TRANSPORT BEHAVIOUR AND ATTITUDE SURVEYS

7/10 agree that the use of face coverings on public transport makes them feel safer

Wave 16 Report
(Survey undertaken between 21st February and 8th March 2022)
Key Findings Infographic

Positivity towards ways of travelling

Reasons for feeling negatively towards public transport

How to feel safer

Since the Covid-19 restrictions

Commuting behaviours

The results for Wave 16 are broadly similar to Waves 15. Key differences include:

- More commuting journeys are anticipated post-Covid
- More respondents reported feeling positively than negatively toward train travel, with greater equity in positivity and negativity across other public transport modes. Reasons for feeling negatively toward bus and train travel saw a change from previous waves – with a greater focus on service levels rather than exposure to Covid
- More people said that they already feel safe whilst using public transport
- More people anticipated travel abroad in the next three months, including by air travel
